## EXPERIENCE

**GENERAL ASSEMBLY**                                                                                                    **Boston, MA**
*Immersive Instructional Associate*                                                                          **Sept 2020 - Current**

- Instructional Associate for General Assembly's Software Engineering Immersive program, teaching languages, frameworks, and skills for full-stack and frontend development as well as computer science fundamentals to remote cohorts while supporting lead instructors & students.

*Engineering Fellow*                                                                                              **Jun 2020 - Sept 2020**

- Completed a 3-month, 420 hour, software engineering immersive program emphasizing modern technologies & processes
- Developed full-stack applications both independently and collaboratively (group work and pair programming)
- Created apps using technologies including HTML, CSS, JavaScript, Node, React.js, MongoDB, Mongoose, Express, SQL, PostgreSQL, Git

### PROJECTS

- **Good Egg** *Scrum Master -  React  /  JavaScript  /  CSS /  MongoDB /  Express / Node.js*          **preview**        **gitHub**
  Created for users to anonymously report incidents with police to the community in a public & secure manner

- **MOVIE CREDS** *Lead Developer -  React  /  JavaScript  /  CSS /  The Movie Database API*          **preview**        **gitHub**
  Movie Creds is an app that focuses on one incredibly common question, what else was an actor in?

- **SIMON SAYS** *Lead Developer -  HTML  /  JavaScript  /  CSS / Local Storage*          **preview**        **gitHub**
  Simon Says Pick A Color is a game for players to test their memory skills

**VERSE.IO**                                                                                    **San Diego, CA, Boston, MA (Remote)**
*Team Lead*                                                                                                        **Sept 2017 - Apr 2020**

- Responsible for capacity planning and management of 40+ inside sales representatives serving 100+ clients across the real estate, lending, insurance, and marketing industries
- Assisted engineering & senior staff with release planning, testing, and quality assurance control
- Designed reporting to inform & optimize sales rep. conversion rate, efficiency, and performance goal targets

**STROBER DENTAL**                                                                                                    **San Diego, CA**
*Insurance Coordinator & Patient Concierge*                                                            **Jan 2017 - Sept 2017**

- Verified patient insurance eligibility, claim statuses, and complete benefits breakdown with agencies
- Created treatment plans, posted payments, and maintained patient records in compliance with HIPAA regulations

**OSORIO DENTAL GROUP**                                                                                                **Boston, MA**
*Office & Marketing Manager*                                                                                **Aug 2014 - Sept 2016**

- Streamlined office operations by creating a secure, digital file sharing system and a reporting infrastructure
- Designed office-wide print and digital marketing materials in lieu of a former marketing firm
